

Footwear Guidelines

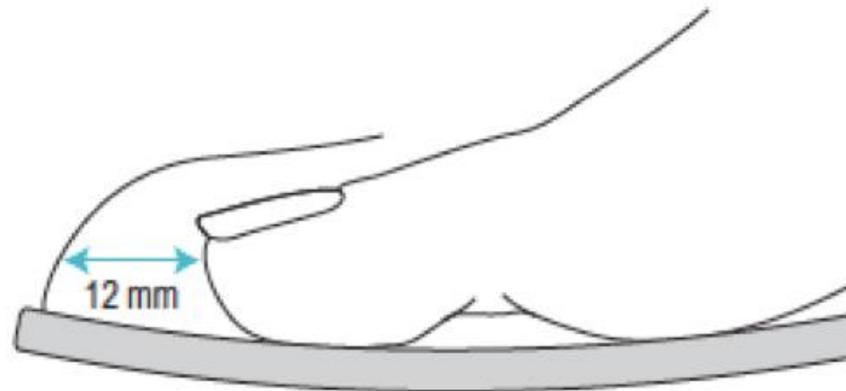

How does my shoe fit?

CHECK LENGTH – HEEL TO TOE

Check for thumb width of space at the end of the shoe

How does my shoe fit?

CHECK WIDTH – HEEL TO TOE

Shoes should fit
comfortably

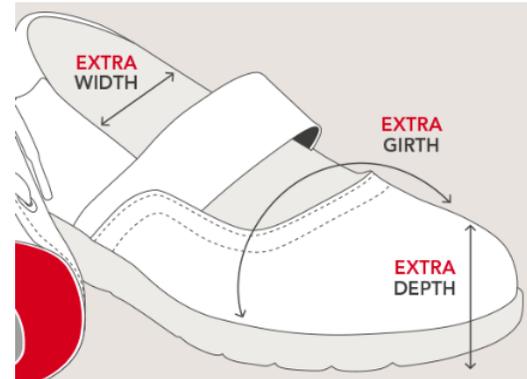

Avoid poor-fitting
shoes

ADAM.

What features should I look for in a good shoe?

Wide and deep enough so your toes are not constricted

How does my shoe fit?

CHECK HEEL GRIP

There should be no gap

The back of your shoe should fit your heel with no gapping to avoid slippage

How does my shoe fit?

HEEL GRIP

Tight and loose shoes can lead to blisters and should be avoided

*make sure to cover all blisters

SHUTTERSTOCK

What features should I look for in a good shoe?

HEEL COUNTER

Heel counter should be firm but not too rigid

Shoe Assessment

HEEL HEIGHT

- Heel height should be no greater than 2 inches (5cm)
- The higher the heel the more pressure you put on the ball of the foot

What features should I look for in a good shoe?

SUPPORT & PROTECTION

If you step on something or drop something on your foot the shoes should be able to protect you

FLEXIBLE

Flexible in the forefoot for comfortable walking

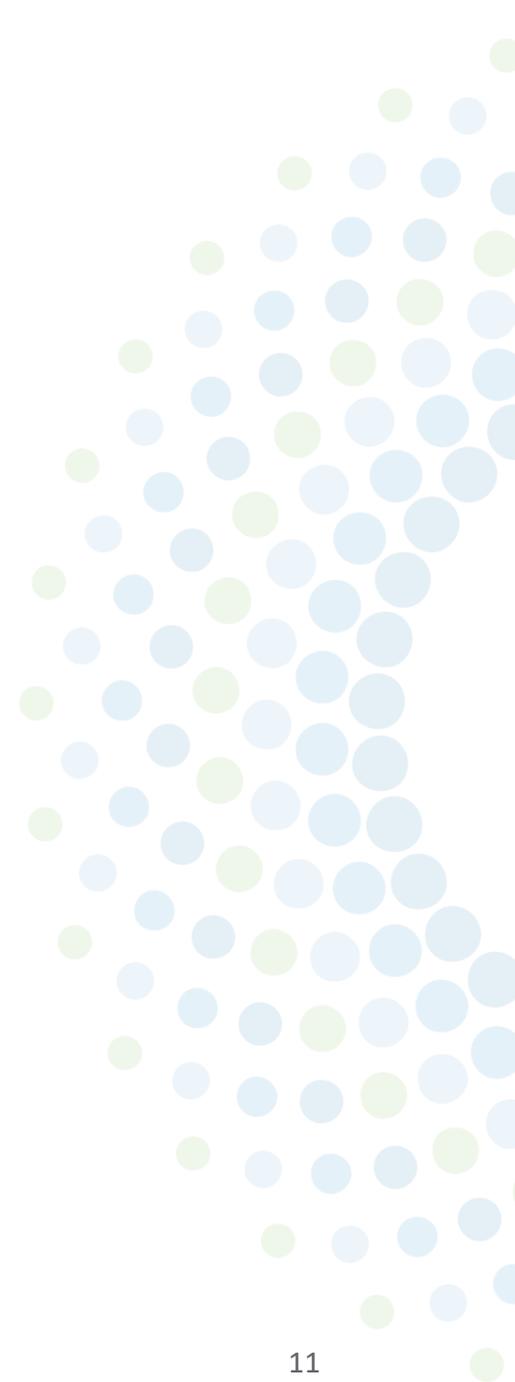

What features should I look for in a good shoe?

Wide enough opening for easy on and off

What's good about these shoes?

Features we like in these shoes

- Back strap for stability
- Breathable
- Easy to put on and take off
- Easy to clean
- Adjustable
- Affordable

Features we DON'T like

- Poor stability
- Not protective
- Poor support
- Easy to puncture

Sandals

LIKES

- Easy on and off
- Affordable
- Heel Strap
- Arch Supported
- Ventilated
- More coverage, the better!

***Choose closed toe if possible**

Examples of supportive summer shoes

- Heel strap
- Good arch
- Non-slip sole
- Good foot retention

Footwear for home

Features to look for:

- Firm outsole
- Fastening straps
- Heel counter
- Good tread
- Flexible
- Intact
- Closed heel

Features to look for in winter shoes

- Warm
- Waterproof
- Firm grip
- Ankle support
- Easy on and off

It is time to replace your shoes!

- When there are cracks or holes in the shoes
- Or the shoe is no longer supportive
