

A Year in Review

In this **2021-2022** school year Pathways Hamilton students achieved so much despite the COVID-19 pandemic affecting their schooling. Students learned **strength** through multiple learning changes, they went to school online and in person, and showed **resilience** as each month went by. Our students **persevered** throughout, were resilient amidst cancelled sports teams and clubs, and despite all these challenges they still found a way to get the most of out school. Pathways was there every step of the way offering virtual and in-person **tutoring**, as well as **mentoring** from Coaches.

Some highlights this year include Pathways **trips** and **workshops**. Our students participated in many **events** to help the community including cleaning up parks, baking cookies to raise money, learning about health through medical students at McMaster and so much more! Students participated in new group initiatives including our **Pathways Youth Leaders**, Youth **Anti-Racism Committee** and our **Health in the Diaspora** program.

Now in June, our students are finishing the year strong. We have over **140 students graduating** from Pathways this year and we are going to miss them so much. We are so **proud** of how far every student has come over these short 4 years. We have students attending post secondary for engineering, nursing, business, teaching and trades, just to name a few! Pathways is so proud of all that our graduates have achieved! **Congratulations graduates!**

Pathways to Education Hamilton
invites you to the 2022

NSLC and SHAD Summer Camp Scholarships

Congratulations to our two SHAD scholarship recipients who will be attending a Canadian university campus of their choice from locations across Canada. The SHAD scholarship program has been offered to Grade 10 & 11 students at various Pathways locations in previous years.

Students must apply for the scholarship in order to be selected. SHAD is a STEAM (science technology engineering arts & maths) summer camp program where students build on their leadership skills, receive experiential learning opportunities, and participate in challenges.

Visit www.shad.ca to learn more.

New this year is the NSLC (National Student Leadership Conference) summer program where one Pathways Grade 11 student scholarship recipient may select to attend one of 14 college campuses located in the United States. This summer experience was donated to Pathways Hamilton and the Pathways student has been awarded the scholarship.

Visit www.nslc.org to learn more.
